QUALIFICATIONS

The recipient should be an individual who; (a) over a period of years has been actively engaged in the manufacture, merchandising or the technical and research branches of the wood industry in Canada, and (b) who during that period has also made an outstanding contribution to the welfare of the industry.

Terms of Reference:

The *CLA Special Service Award* has historically been received by someone who has shown leadership and has advanced the wood products profile either in marketing and sales or manufacturing. The candidates who have received the Award have been carefully selected by the Executive Committee. The selected candidate is always a unanimous decision from the Executive Committee and, in rare cases where it was not unanimous, the prize was not awarded. Traditionally, past winners of the Award have been, at one time or another, a leader in either sales or manufacturing.

The recipient does not need to be a member of the CLA - neither does the proponent.
